- Regularly adjust rietyins to shlow the gas missisten.
 Regularly check screws, make sure all tightened.
 Erosive cleaning agents & rough fabric are forbidden. Keeps products dry at all time.

疑難排除

剛組裝好就無法順利調整升降?

請先檢查卓面是否放物品?是否只放在某一個地方(重心會偏離)? 若是時,請先將桌面清空或將東西移到較中間位子,讓重心移至中間,桌 面較呈水平,即可正常調整,再將物品移至原來位子即可。

若無時,請先使用水平尺或圓形物體檢查地面與桌面是否呈水平狀態。 若未呈水平,請將所有螺絲鬆開一半,然後做升降的動作,2~3次後壓到 底,鎖緊即可正常升隆;若已呈水平狀卻無法升隆,請填寫維修單,傳回 公司,公司將會盡快處理。

桌面傾斜至一定角度時而無法固定時?

請使用老虎鉗在無法固定處稍微夾緊即可。 如有異聲,請加潤滑油及可消除聲音。

使用一段時間桌子無法升降?

請先檢查桌面是否放物品?是否只放在某一個地方?(重心會偏離)? 若是時,請先將桌面清空或將物品移到較中間位子,讓重心移至中間。 若無時,將桌面先往下調整再用手往上支撐,如此循環幾次,即可正常 調整;若桌子已在最低點,則直接用手往上撐。

調整至所需要高度鎖緊把手後,再將物品移至原來位子即可。

Troubleshooting

Having trouble up and down the desktop?

- Check if any weight inclined to the side that makes the top not in good balance.
- Make sure if the desk is horizontal placed on the ground.
- Above mentioned not found, problem remained. Suggest to have all screws half-loosen Tight them up one by one diagonally.

Problem remained after tried all. Contact dealer or distributor for better solution

Angle adjuster not in functioning?

- . Pliers to clip where the top stuck
- Oil lubricating to rule out the noise if any

Having trouble up and down the desktop? after period of time.
