

## G5 Assembly Instruction

W60\*D48\*H67~105cm ±1

Parts Breakdown Assembly Steps

- Applies for kid more than 12 years.
- Please be assembled by adult and pay attention to child safety.
- Please accompany kids to use.

1 Desktop

2 Base plate

3 Mounting plate

4 Gas Spring

5 Screws+Washers

6 Screws

7 Allen keys

1

Fasten the base plate 2 into the bottom of gas spring 4 with 3 screws and 3 washers 5 by Allen Key 7.

2

Place the desk surface 1 face down onto the floor, then fasten together with the mounting plate 3 with 4 screws 6.

3

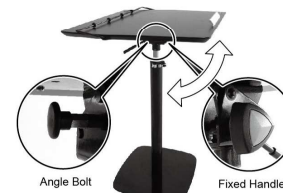

Insert the assembly of step 2 to the one of step 1. Press down the desktop 1 by force for a close fit of desktop 1 with gas spring 4.

Lastly, fasten the adjustment screw under the mounting plate tightly by Allen key 7 No.3.

## Operation Instruction

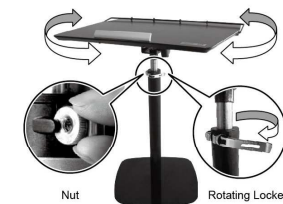

### Change the angle

Release the Fixed Handle and use the Angle Bolt to adjusting angle. Fasten both handle tightly while you finish.

### Rotate the desktop

You can fixed the desktop by Rotating Locker, or use the nut for adjustment while Rotating Locker is too loose.

### Up

Release the locking lever of gas spring.

Press up the lift lever of gas spring to raise, and release to stop.

Fasten tightly the locking lever.

### Down

Release the locking lever of gas spring.

Use left (or right) hand to press up the lift lever and assisted with the other hand and body weight to press down the desktop, then the desk top can go down smoothly.

Fasten tightly the locking lever.
